

PREVENT THE CORONAVIRUS (COVID-19) BY INTENSIFYING HYGIENE MEASURES!

In Companies

1

Keep bathrooms stocked with toilet paper, hand soap, disposable paper towel or electric hand driers.

Place hand washing and sneezing protocol posters in visible locations.

2

3

Implement all preventive measures recommended by the health authorities.

Wipe all doorknobs, washbasin handles, lavatory toilets, phones, keyboards and computer devices with disinfectant or 70° alcohol, at least twice a day.

4

5

Keep all work areas ventilated without creating sharp air currents.
